DETAILED ACTION

Response to Amendment

1. Applicant's amendment filed 29 December 2004 has been entered and overcomes the objection to the title.

Drawings

2. The drawings were received on 29 December 2004. These drawings are acceptable.

Allowable Subject Matter

3. Claims 1-4, 6-17, and 20-22 are allowed.
4. The following is an examiner's statement of reasons for allowance: Applicant has amended independent claim 1 to differently describe the invention and argues that the applied prior art Hirano (US 6,512,337) does not teach an electrode having a section that continuously and radially extend from a first portion up to a trace electrode. Applicant's amendment and remarks are persuasive.
5. Thus, regarding independent claim 1, the prior art of record neither shows or suggests a plasma display panel including, in addition to other limitations of the claim, a first substrate having at least one first electrode extending in a first direction and at least one second electrode extending parallel with the first electrode, and a second substrate including at least one third electrode extending in a second direction perpendicular to the first direction, wherein at least one of the first and second electrodes comprises a base portion extending in the first direction, a first portion being in the form of a line

extending in the first direction and positioned apart from the base portion in the second direction, and a second portion continuously and radially extending from the first portion up to the base portion.

6. The subject electrode structure described earlier is provided for improving the luminance, light-emission efficiency, and stability of the plasma display panel. Due to their dependency upon independent claim 1, claims 2-4, 6-17, and 20-22 are also allowable. The design is new and unique to the art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
